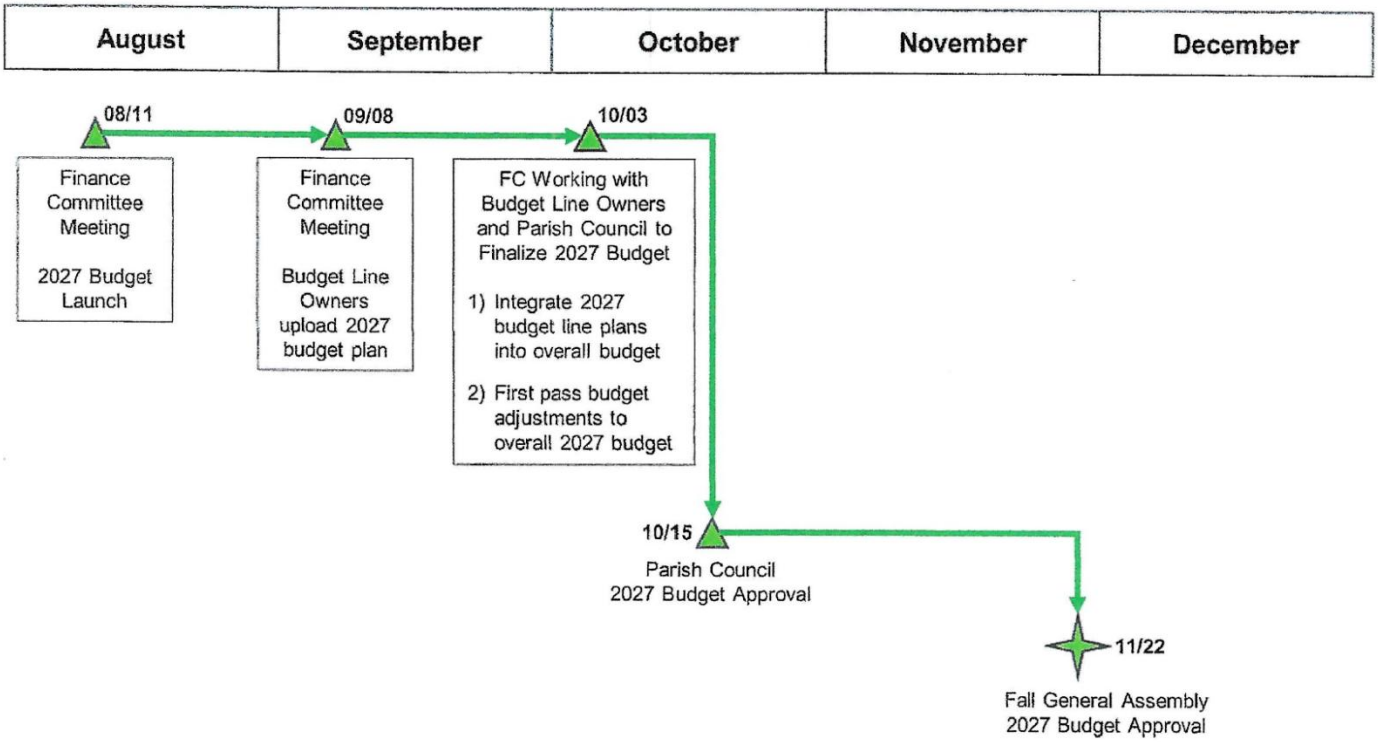
The AGOC Finance Committee team continues to work diligently in pursuing its goals and objectives. Our primary objective is to regularly review the church's finances and make recommendations to the Parish Council regarding revenue generation, managing expenses and creating the church's annual budget. This is all designed to create a model of financial sustainability for the church. Below you will find the 2027 Budget Plan being implemented and executed over the next few months.

2027 Budget Plan

Goal: To build a bottom-up balanced budget that is compliant with the Unified Parish Regulations with budget lines to enable the Finance and Audit Committees to track expenditure-to-forecast on a monthly basis.



In addition to dealing with Financial issues, the Finance Committee is involved with other church infrastructure including the preparation of Finance Operations Manual, the establishment of a Global Communications and Data Network to create greater efficiency and transparency and collaboration with the Stewardship, Thriving Parish Committees and other church ministries to assist with revenue projections.

The Finance Committee meets once a month and the dates of our meetings can be found in the church calendar. All meetings are open to parishioners.
